15 minutes	Gabriela, Paola/Marcella	Sharing experiences		We should well prepare the stories to share, so they support the workshop subject (<i>not</i> effects of BB on participants, but <u>facilitating experiences</u>)
20 minutes	All (lead by Esther)	Questions from audience	Whiteboard and markers	
5 minutes	Paola	Round up	Hand out (1 A4) main workshop elements	Contact details. Distribute guidebooks.

Just for clarification:

- Marcella / Paola Supporting the participants in telling life story -> how have you done this and what were the point you have learned?
Emotional involvement -> When the facilitator feels emotionally involved by hearing the stories, or other emotional involvements.
- Gabriela Personality of the facilitator -> What is your experience in this, what suites best?
Cooperation in the team -> What were the learning points in your pilot programmes?

Gabriela: Personality of the facilitator

Cooperation in the team

Could you put as the second point Facilitators’ support toward healthy relationships between offenders and victims , instead of cooperation in the team? I will speak about the team as well, but it came to my mind to share about the relationships in the tow groups and what we have learnt, it was really interesting. Is it possible? Thank you.
